

Coding Contribution - Quality Manager

Contribution Scope

Quality-focused coding support across validation, test coverage, and defect closure readiness.

Implemented/Supported Code Areas

- ? Supported FEFO and BOM verification logic through test-focused reviews of:
 - ? server/tests/fefo.test.ts
 - ? server/tests/bom-consumption.test.ts
 - ? server/tests/integration/flows.test.ts
- ? Supported lint and code hygiene hardening:
 - ? .eslintrc.cjs
 - ? server/src/modules/bom/bom.routes.ts
 - ? server/src/modules/reports/reports.routes.ts
- ? Supported regression checks for client behavior after sprint-4 UI updates.

Evidence-Based Role Fit

This contribution aligns with Quality Manager responsibilities: defect prevention, validation confidence, and release gating.

Team Coding Distribution (Agreed)

- ? Nisal Dulneth Wickramaarachchi (Start up manager): 62%
- ? NBUUB Balalla (Project manager): 10%
- ? KMDD Kulathunga (Scheduling manager): 8%
- ? HJMSM Jayasinghe (Quality manager): 11%
- ? Heshan Shalinda Koralagamage (Risk manager): 9%

Quality contribution remains supportive and role-appropriate, not equal to core implementation ownership.
